

Sól, search and alerting at your fingertips

Join the thousands of **landmen, geologists, mineral buyers, brokers, analysts, and engineers** from organizations big and small who use Sól everyday.

Fast, attribute-rich & affordable.

Search and gather insight from the richest database of full lifecycle oil and gas filings across Oklahoma.

EXPLORE

Search your area of interest, no matter how big or small and get results in seconds.

GET NOTIFIED

Set up alerts to receive a daily email tailored to your interests.

DISCOVER TRENDS

Perform larger queries and then *mine, aggregate, and export data* to uncover industry trends.

Sól is a **lightweight, web-based search and alerting tool** which allows you to easily monitor and generate alerts on regulatory filings and leases.

By the Numbers

7,000,000

O&G regulatory & county records

225,000

documents processed in Oklahoma each month

650+

attributes within 17 assets

24 hours*

from availability within state agency to appearing in product

*Depending on agency submission frequency

With Sol we are able to quickly analyze leasing activity and see where new drilling is likely to occur. Additionally, Sol allows us to track oil and gas lease assignments; providing insight into who is operating under shell companies and which companies are building strong operating positions.

Convey Energy Consultants**

Sól, search and alerting at your fingertips

Sól was purpose-built by a dedicated team of UX designers and oil and gas industry experts **with your exact needs in mind.**

Our products are as beautiful as they are intuitive:

immediately access **county, state, and federal data** from your office in a single, easy-to-use interface.

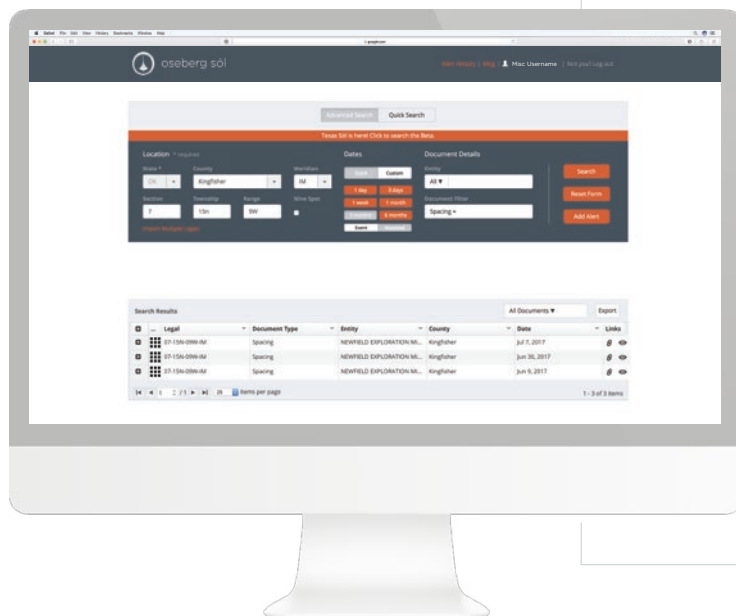

“

Sól is a game changer. The ability to create alerts for particular regulatory filings in our area of interest (AOI) saves us both time and manpower. I can always count on Sól to keep my team abreast of any changes in our AOI.

Often times we were the first to contact many mineral/leasehold owners in hotly-contested areas thanks to Sól.

**-Kyle Torbert, Owner
Torbert Resources**
